MOLLER INTERNATIONAL, INC.
NOTES TO FINANCIAL STATEMENTS
Unaudited

NOTE A – ORGANIZATION AND BASIS OF PRESENTATION

The accompanying unaudited financial statements of Moller International, Inc. (“MI”) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q. Accordingly, these financial statements may not include all of the information and disclosures required by generally accepted accounting principles for complete financial statements. These financial statements should be read in conjunction with the audited financial statements and the notes thereto for the fiscal year ended June 30, 2014 filed on Form 10-K. In the opinion of management, the accompanying unaudited financial statements contain all adjustments necessary to fairly present MI’s financial position as of September 30, 2014, and its results of operations and its cash flows for the three months ended September 30, 2014 and 2013. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the consolidated financial statements which would substantially duplicate the disclosure contained in the audited consolidated financial statements for 2014 as reported in the 10-K have been omitted.

Embedded conversion features

The Company evaluates embedded conversion features within convertible debt and convertible preferred stock under ASC 815 “Derivatives and Hedging” to determine whether the embedded conversion features should be bifurcated from the host instrument and accounted for as a derivative at fair value with changes in fair value recorded in earnings. If the conversion feature does not require derivative treatment under ASC 815, the instrument is evaluated under ASC 470-20 “Debt with Conversion and Other Options” for consideration of any beneficial conversion feature.

NOTE B – GOING CONCERN

As of September 30, 2014, MI had an accumulated deficit and a working capital deficit. In addition, MI is currently in the development stage of the Skycar and Rotapower engine programs, and has no revenue producing products. Successful completion of product development activities for either or both of these programs will require significant additional sources of capital. These conditions raise substantial doubt as to our ability to continue as a going concern. Historically, funding was provided by certain shareholders, including the majority shareholder, in the form of short-term notes payable. In addition, the majority shareholder granted us a deferral on the payment of rent for our building. There is no assurance that we will continue to receive funding from shareholders, particularly our major shareholder given he has filed for protection under the federal Chapter 11 reorganization provisions of the federal bankruptcy law. Consequently, we are evaluating several alternatives to raise the additional capital through debt or equity transactions. There is no assurance that our efforts will be successful, however, and the financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

NOTE C – ACCRUED LIABILITIES – MAJORITY SHAREHOLDER

We lease our facility from our majority shareholder. Rent expense to our majority shareholder was \$132,652 during the three months ended September 30, 2014. During the three months ended September 30, 2013 our rent expense was completely offset by billings to our affiliate, Freedom Motors and as a result our expense was \$0.

As of September 30, 2014, MI had outstanding accrued liabilities consisting of accrued rent and accrued interest to our majority shareholder totaling \$6,795,034.

NOTE D – NOTES PAYABLE & DERIVATIVE LIABILITIES

Majority Shareholder

During the three months ended September 30, 2014 and 2013 the Company made repayments on majority shareholder notes payable of \$49,029 and \$104,452, respectively. The total debt outstanding to majority shareholder at September 30, 2014 is \$2,139,918. The debt is unsecured, payable upon demand and bears an annual interest rate of 10%.

Minority Shareholder

During the three months ended September 30, 2014 and 2013 MI made repayments on related party notes payable of \$359 and \$0, respectively. The total due to minority shareholder at September 30, 2014 is \$207,709. The debt is unsecured, payable upon demand and bears an annual interest rate of 10%.

Non-Related Party

Convertible Notes Payable & Derivative Liabilities

During the three months ended September 30, 2014 and 2013 MI received \$115,000 and \$25,000 related to convertible promissory notes. The borrowings are due nine to twelve months after issuance, carry an interest rate of 0% to 8% for 90 days, then increases to 12%, and is convertible into common stock at the lesser of \$0.24 or 60% of the lowest trading price in the 25 trading days prior to conversion and for some instruments 53% and 58% of the average of the three lowest days in the ten trading days prior to conversion. A debt discount of \$100,174 was recorded as a result of these convertible notes during the three months ended September 30, 2014. A total of \$46,280 of the debt discount was amortized during the period to interest expense. During the three months ended September 30, 2014, promissory notes totaling \$49,075 were converted to 1,359,783 shares of MI common stock as a result \$72,879 of the derivative liability was reclassified to additional paid in capital. The change in fair value of the derivative liability at September 30, 2014 is \$18,103 and is recorded as derivative income.

The Company analyzed the conversion options for derivative accounting consideration under ASC 815-15 "Derivatives and Hedging" and determined that for the instruments immediately convertible, the embedded conversion features should be classified as liabilities due to their being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options. The embedded conversion features were measured at fair value at inception with the change in fair value recorded to earnings. Additionally, because there is no explicit limit to the number of shares to be issued upon conversion of the above instruments, the Company cannot determine if it will have sufficient authorized shares to settle all other share-settleable instruments, including the warrants granted above. As a result, all other share-settable instruments have also been classified as liabilities.

Derivative Liabilities		
June 30, 2014	\$	281,251
Debt discount due to derivative liability		100,174
Reclass of derivative liability to additional paid-in capital due to conversion of related notes payable		(72,879)
Change in fair value		(18,103)
September 30, 2014	\$	290,443

NOTE E – STOCK-BASED COMPENSATION

During the three months ended September 30, 2014, MI issued 25,994 shares of common stock for settlement of services to outside consultants and certain employees. We valued these shares at the fair market value on the dates of issuance of \$2,460.

MI also issued 1,359,783 shares of commons stock in settlement of \$49,075 convertible promissory notes.

NOTE F – FAIR VALUE MEASUREMENTS

The Company measures fair value in accordance with a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; and
- Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The following table sets forth the Company's consolidated financial assets and liabilities measured at fair value by level within the fair value hierarchy as of September 30, 2013 and June 30, 2013. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
LIABILITIES:				
Derivative liabilities – 6/30/2014	281,251	-	-	281,251
Derivative liabilities – 9/30/2014	290,443			290,443

NOTE G – SUBSEQUENT EVENTS

Subsequent to September 30, 2014, the Company issued a total of 1,379,727 shares of common stock to convert loans with a principal and interest balance of \$47,684. Additionally 21,349 shares were issued for services.

ITEM 2 – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Three months Ended September 30, 2014 and September 30, 2013:

For the three-months ended September 30, 2014, we had a net loss of \$470,265 or \$0.01 loss per share as compared to a net loss of \$28,328 or \$0.00 loss per share for the same period of 2013. We continue to pursue the development activities on the Skycar, Rotapower engine project, primarily in the areas of its flight control system (FCS) and the performance advantages of introducing a hybrid approach to generating the high power required to take off and land. Although there is no assurance that this vehicle will meet with success in the market place, the Company is actively seeking support for the program and, if found, may choose to move into the production of these vehicles.

Going Concern and Liquidity

As of September 30, 2014, MI had an accumulated deficit of \$54,687,865 and a working capital deficit of \$14,109,132. In addition, MI is currently in the development stage of the Skycar and Rotapower engine programs, and has no revenue producing products. Successful completion of product development activities for either or both of these programs will require significant additional sources of capital. These conditions raise substantial doubt as to our ability to continue as a going concern. Historically, funding was provided by certain shareholders, including the majority shareholder, in the form of short-term notes payable. In addition, the majority shareholder granted us a deferral on the payment of rent for our building. There is no assurance that we will continue to receive funding from shareholders, particularly our major shareholder given he has filed for protection under the federal Chapter 11 reorganization provisions of the federal bankruptcy law. Consequently, we are evaluating several alternatives to raise the additional capital through debt or equity transactions. There is no assurance that our efforts will be successful, however, and the financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

ITEM 3 – QUALITATIVE AND QUANTITATIVE CONCERNS ABOUT MARKET RISK

As a smaller reporting company we are not required to report items under this section.

ITEM 4 – CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our President, Paul Moller, acts as the "Certifying Officer" for the Company and is responsible for establishing and maintaining disclosure controls and procedures. The Certifying Officer has designed such disclosure controls and procedures to ensure that material information is made known to him, particularly during the period in which this report was prepared. The Certifying Officer has evaluated the effectiveness of our disclosure controls and procedures as of the date of this report and believes that the disclosure controls and procedures are not effective based on the required evaluation. We believe this is due to the limited resources devoted to accounting and financial reporting during this reporting period and the Company will continue to remedy the shortfall by hiring additional personnel to address its accounting and financial reporting functions as soon as possible and when funding becomes available.

Changes in Internal Controls Over Financial Reporting

There have been no changes in the company’s internal controls over Financial Reporting since the year ended June 30, 2014, although the Company has reviewed its internal controls relative to the Sarbanes-Oxley Act provisions and expects that there will be revisions to some of its existing processes and controls during the current fiscal year.
