SECURITIES AND EXCHANGE COMMISSION
WASHINGTON D.C. 20549**

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File No. 000-33173

Moller International, Inc.

(Exact name of registrant as specified in its charter)

California

(State or other jurisdiction of incorporation)

68-0006075

(I.R.S. Employer Identification No.)

1222 Research Park Drive, Davis CA

(Address of Principal Executive Office)

95618

(Zip Code)

Registrant's telephone number, including area code: **(530) 756-5086**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

(Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 15, 2013, there were 51,704,174 shares of common stock outstanding.

Moller International, Inc.
Notes To Consolidated Financial Statements
Unaudited

NOTE A – ORGANIZATION AND BASIS OF PRESENTATION

The accompanying unaudited financial statements of Moller International, Inc. (“MI”) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q. Accordingly, these financial statements may not include all of the information and disclosures required by generally accepted accounting principles for complete financial statements. These financial statements should be read in conjunction with the audited financial statements and the notes thereto for the fiscal year ended June 30, 2013 filed on Form 10-K. In the opinion of management, the accompanying unaudited financial statements contain all adjustments necessary to fairly present MI’s financial position as of September 30, 2013, and its results of operations and its cash flows for the three months ended September 30, 2013 and 2012. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the consolidated financial statements which would substantially duplicate the disclosure contained in the audited consolidated financial statements for 2013 as reported in the 10-K have been omitted.

Embedded conversion features

The Company evaluates embedded conversion features within convertible debt and convertible preferred stock under ASC 815 “Derivatives and Hedging” to determine whether the embedded conversion features should be bifurcated from the host instrument and accounted for as a derivative at fair value with changes in fair value recorded in earnings. If the conversion feature does not require derivative treatment under ASC 815, the instrument is evaluated under ASC 470-20 “Debt with Conversion and Other Options” for consideration of any beneficial conversion feature.

NOTE B – GOING CONCERN

As of September 30, 2013, MI had an accumulated deficit of \$52,510,575 and a working capital deficit of \$13,224,124. In addition, MI is currently in the development stage of the Skycar and Rotapower engine programs, and has no revenue producing products. Successful completion of product development activities for either or both of these programs will require significant additional sources of capital. These conditions raise substantial doubt as to our ability to continue as a going concern. Historically, funding was provided by certain shareholders, including the majority shareholder, in the form of short-term notes payable. In addition, the majority shareholder granted us a deferral on the payment of rent for our building. There is no assurance that we will continue to receive funding from shareholders, particularly our major shareholder given he has filed for protection under the federal Chapter 11 reorganization provisions of the federal bankruptcy law. Consequently, we are evaluating several alternatives to raise the additional capital through debt or equity transactions. There is no assurance that our efforts will be successful, however, and the financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

NOTE C – ACCRUED LIABILITIES – MAJORITY SHAREHOLDER

As of September 30, 2013, MI had outstanding accrued liabilities consisting of accrued rent and accrued interest to our majority shareholder totaling \$6,044,164.

NOTE D – NOTES PAYABLE & DERIVATIVE LIABILITIES

Notes Payable

During the three months ended September 30, 2013 and 2012 MI made repayments on related party notes payable of \$104,452 and \$11,210 respectively.

Convertible Notes Payable & Derivative Liabilities

During the three months ended September 30, 2013 and 2012 MI received \$25,000 and \$0 related to convertible promissory notes. The borrowing is due on August 7, 2014, carries an interest rate of 0% for 90 days, then increases to 12%, and is convertible into common stock at the lesser of \$0.24 or 60% of the lowest trading price in the 25 trading days prior to conversion. In addition, during the three months ended September 30, 2013, a \$15,000 promissory note was converted to 164,654 shares of MI common stock.

[Table of Contents](#)

The Company analyzed the conversion options for derivative accounting consideration under ASC 815-15 "Derivatives and Hedging" and determined that the embedded conversion features should be classified as liabilities due to their being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options. The embedded conversion features were measured at fair value at inception with the change in fair value recorded to earnings. Additionally, because there is no explicit limit to the number of shares to be issued upon conversion of the above instruments, the Company cannot determine if it will have sufficient authorized shares to settle all other share-settleable instruments, including the warrants granted above. As a result, all other share-settable instruments have also been classified as liabilities.

| | | |
|--|----|-----------|
| Derivative Liabilities | | |
| June 30, 2013 | \$ | 492,461 |
| Additions to derivatives | | 38,722 |
| Write off of derivative liability to additional paid-in capital due to conversion of related notes payable | | (11,462) |
| Change in fair value | | (253,412) |
| September 30, 2013 | \$ | 266,309 |

Discount amortization charged to interest expense during the three months ended September 30, 2013, totaled \$31,577.

NOTE E – STOCK-BASED COMPENSATION

During the three months ended September 30, 2013, MI issued 357,590 shares of common stock for settlement of services and liabilities to outside consultants and certain employees. We valued these shares at the fair market value on the dates of issuance of \$76,933.

MI also issued 164,654 shares of commons stock in settlement of a \$15,000 convertible promissory note.

NOTE F – FAIR VALUE MEASUREMENTS

The Company measures fair value in accordance with a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; and
- Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The following table sets forth the Company's consolidated financial assets and liabilities measured at fair value by level within the fair value hierarchy as of September 30, 2013 and June 30, 2013. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

| | <u>Total</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
|-----------------------------------|--------------|----------------|----------------|----------------|
| LIABILITIES: | | | | |
| Derivative liabilities- 9/30/2013 | 266,309 | - | - | 266,309 |
| Derivative liabilities- 6/30/2013 | 492,461 | | | 492,461 |

NOTE G – SUBSEQUENT EVENTS

Subsequent to September 30, 2013, the Company issued a total of 29,541 shares of common stock valued at \$3,447 in accordance with ongoing agreements for services to employees working with the Company.

Also, subsequent to September 30, 2013, the Company issued a total of 2,057,714 shares of common stock in settlement of \$91,422 in convertible promissory notes and accrued interest.

ITEM 2 – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Three months Ended September 30, 2013 and September 30, 2012:

For the three-months ended September 30, 2013, we had a net loss of \$28,328 or \$0.00 loss per share as compared to a net loss of \$404,518 or \$0.01 loss per share for the same period of 2012. We continue to pursue the development activities on the Skycar, Rotapower engine project, primarily in the areas of its flight control system (FCS) and the performance advantages of introducing a hybrid approach to generating the high power required to take off and land. Although there is no assurance that this vehicle will meet with success in the market place, the Company is actively seeking support for the program and, if found, may choose to move into the production of these vehicles.

Going Concern and Liquidity

As of September 30, 2013, MI had an accumulated deficit of \$52,510,575 and a working capital deficit of \$13,224,124. In addition, MI is currently in the development stage of the Skycar and Rotapower engine programs, and has no revenue producing products. Successful completion of product development activities for either or both of these programs will require significant additional sources of capital. These conditions raise substantial doubt as to our ability to continue as a going concern. Historically, funding was provided by certain shareholders, including the majority shareholder, in the form of short-term notes payable. In addition, the majority shareholder granted us a deferral on the payment of rent for our building. There is no assurance that we will continue to receive funding from shareholders, particularly our major shareholder given he has filed for protection under the federal Chapter 11 reorganization provisions of the federal bankruptcy law. Consequently, we are evaluating several alternatives to raise the additional capital through debt or equity transactions. There is no assurance that our efforts will be successful, however, and the financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

ITEM 3 – QUALITATIVE AND QUANTITATIVE CONCERNS ABOUT MARKET RISK

As a smaller reporting company we are not required to report items under this section.

ITEM 4 – CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our President, Paul Moller, acts as the "Certifying Officer" for the Company and is responsible for establishing and maintaining disclosure controls and procedures. The Certifying Officer has designed such disclosure controls and procedures to ensure that material information is made known to him, particularly during the period in which this report was prepared. The Certifying Officer has evaluated the effectiveness of our disclosure controls and procedures as of the date of this report and believes that the disclosure controls and procedures are not effective based on the required evaluation. We believe this is due to the limited resources devoted to accounting and financial reporting during this reporting period and the Company will continue to remedy the shortfall by hiring additional personnel to address its accounting and financial reporting functions as soon as possible and when funding becomes available.

Changes in Internal Controls Over Financial Reporting

There have been no changes in the company’s internal controls over Financial Reporting since the year ended June 30, 2012, although the Company has reviewed its internal controls relative to the Sarbanes-Oxley Act provisions and expects that there will be revisions to some of its existing processes and controls during the current fiscal year.
